

Welcome to EPTA Austria!

Like all EPTA organisations, we are dedicated to inspire piano teachers, performers, and enthusiasts. EPTA Austria exists since 1985 and is committed to the goals set forth by Carola Grindea, who founded the European Piano Teachers Association in London in 1978. For more information on EPTA Parent Organisation, please visit <http://www.epta-europe.org>, where details on all EPTA branches and affiliated organisations can be found in English.

At present the main activities of EPTA Austria are annual conferences, usually held at different locations on the last weekend of October. These provide an opportunity for members to meet, share their experiences, and get fresh impulses from expert teachers and performers. In general the conference language is German.

EPTA Austria proclaimed May 10th of each year as “Day of Pianoforte”. Pianists and teachers, resp. their students, are invited to set activities, like performances or improvisations in concert or private, drawings, or sharing of videos via YouTube. Please let us know of your activity at office@epta-austria.at
